Objective

Motivated second-year Computer Science student seeking co-op/internship opportunities to apply and expand my knowledge in software development, data structures, and algorithms. Passionate about solving complex problems and building innovative solutions through coding and collaboration.

Education

Carleton University (2023-Present)

Bachelor of Computer Science

• Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Computer Systems, Software Engineering, Web Applications, Discrete Structures, Database Management

Technical Skills

- Programming Languages: Java, Python, C/C++, JavaScript, HTML/CSS
- Frameworks & Tools: Git, Node.js, React, SQL, Power App, Power BI, Microsoft Office Suite (Word, Excel, PowerPoint), Azure DevOps.
- Software & Platforms: Visual Studio Code, SQL Server, MongoDB, Azure, AWS
- Operating Systems: Windows, macOS,
- Other Skills: Debugging, Problem Solving,, Data Analysis

Projects

1. Personal Portfolio Website

- Designed and developed a responsive portfolio website using HTML, CSS, and JavaScript.
- Integrated a blog section with dynamic content loading using React.js.
- Deployed using GitHub Pages.

2. Student Management System

Creating a Student Management System using Microsoft Power Apps with the following key features

- Add, update, and delete student records.
- View student details (name, ID, class, contact info, etc.).
- Track attendance, grades, or other relevant data.
- Add a Search Bar to filter student records in the gallery.
- Use Power Automate to send automated emails (e.g., notifications to parents).
- Integrate with Microsoft Teams for easy access.
- Add charts or reports using Power BI.

Work Experience

Fort York Food Bank, June 2021 - August 2021

Volunteer
